PREFACE

Region IV Education Service Center's Child Find/ Serve Program publishes the Directory of Community Agencies and Resources for Handicapped Children to assist agencies and organizations which provide services to handicapped children and youths, ages birth through 22. Ideally, the directory will serve as a basis for coordinated planning and service delivery to these children and youths.

This directory lists direct service providers within the geographic boundaries of Region IV. Also included is a limited selection of statewide resources, national organizations and local parent/advocacy groups which provide information and other services. If appropriate organizations do not appear in the directory, Region IV will be pleased to consider them for inclusion in the next edition.
